

Prime Minds Consulting Private Limited

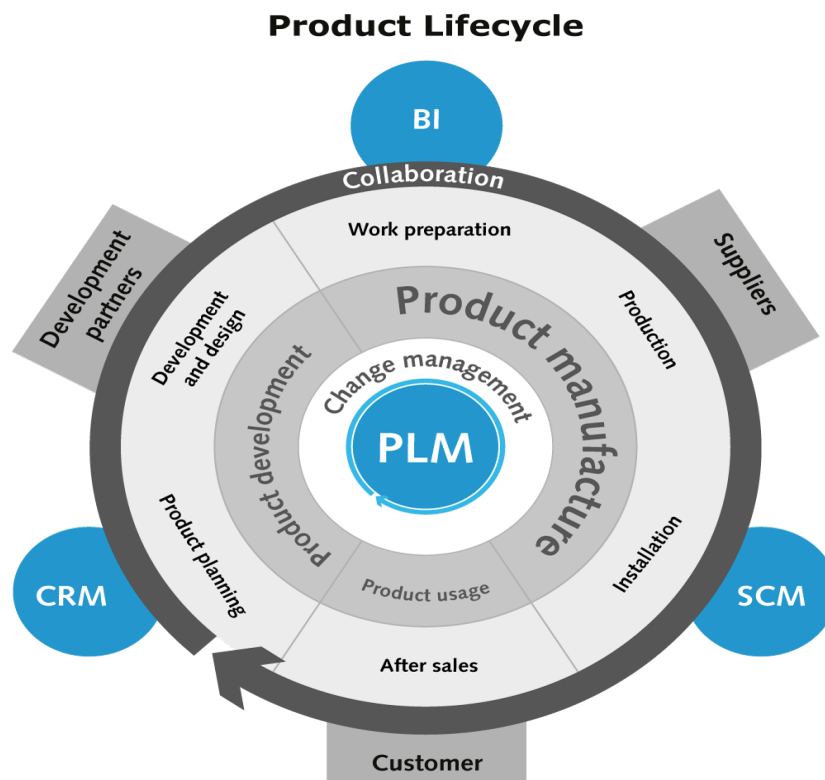

Introduction:

- **Prime Minds Consulting Pvt Ltd (PMCPL), started in the year 2011 with having its head office in Bangalore India, provide superior consulting services to manage and implement ERP, CRM, BI and Analytics, IT outsourcing, IT infrastructure and Engineering services solutions for industries and is serving both domestic and international markets.**
- **Our extensive skills consist of all aspects of implementation and operation, including business requirements definition, development of functional specifications, system design, developing and customizing the package software to meet the functional requirements as defined in the scope**

Product Lifecycle Management:

- **PLM plays a critical role in helping manufacturers develop the next generation of products, at a lower cost, and with a faster time to market. Communication is essential for effectively managing engineering changes.**
- **Odoo PLM leverages the power of an enterprise social network to improve communication across multiple departments. Everyone only follows what they need to, approvals are simple, and document discussions are centralized in real time.**
- **With Odoo PLM, you can work on multiple versions of the same BoM at the same time and manage multiple changes by applying only the differences**

Employees:

- **Currently we have 26+ employees and high-performing and high-potential talented employees who are having more than 1 to 2+ year of experience in the same company PMCPL.**
- **They use their skills, knowledge and expertise to fulfill a certain role at Employees**
- **organizations are taking a closer look at how to identify, measure and develop their key employees as part of talent management.**

What do we do? (cont...):

- **We automate business processes so that our customers can focus their time on what they do best.**
- **We focus on end-to-end solutions for a business of any nature to make sure the solution is optimal.**
- **We help Organizations to manage their business processes.**

- 2.Odoo training will starts from your second month.**
- 3.Every candidate's performance will be evaluated on a regular basis, and once when the board feels that you are ready, you will be promoted to the position of Jr. Software developer (Odoo).**

Product Costing and COGS:

-
- Process Costing**
- The diagram illustrates the flow of costs through a production process. It shows a sequence of steps: raw materials (red circles) entering a process (green oval), followed by a cycle of work-in-progress (yellow circles), and finally finished goods (blue squares) being distributed. A flowchart on the right shows a hierarchical structure. Below, a balance sheet is shown with assets (green) and liabilities (red) on the left, and a profit and loss statement on the right, with a large green arrow indicating the flow of costs from the balance sheet to the P&L.

- 1.Introduction to ERP and Business Process Automation**
- 2. Recap of python knowledge**
- 3. Orientation of python programming for Odoo**
- 4. Understanding Odoo Architecture**
- 5. Understanding server environment- AWS, Azzure, etc.**
- 6. Odoo technical training.**

Prime Minds Consulting Private Limited
